GRIZZLY
WIN MAG

THE GRIZZLY[®] WIN MAG[™]

NEWLY DESIGNED TECHNOLOGY CREATES THE WORLD'S
FIRST AND ONLY SEMI-AUTOMATIC PISTOL FIRING
THE .45 WIN. MAG. AND OTHER
CARTRIDGES INTERCHANGEABLY.

For years the 1911 has been the accepted standard in personal protection and hand gun shooting. But for the serious handgunner, the caliber limitation has been significant.

Now, L.A.R. Manufacturing, Inc. offers the marriage of the very latest technology with the tried and trusted design

of the 1911 — so much so that anyone familiar with the 1911-type .45 automatic pistol will immediately recognize the heritage of the 1911 in the design, style, simplicity and dependability of the Grizzly Win Mag. But with the two most exciting improvements imaginable: The increased caliber capability; and the conversion capacity. We sincerely believe it to be the best of both worlds.

Descriptive Informatin & Data

1. Browning-type short-recoil, locked breech.
2. **Materials:** Mil spec 4140 steel slide and receiver, with non-corrosive, heat-treated, special allo steels for other parts.
3. **Sights:** Front — fixed, ramped blade; Rear — fully adjustable for elevation and windage.

When a GRIZZLY WIN MAG® roars - EVERYTHING LISTENS!

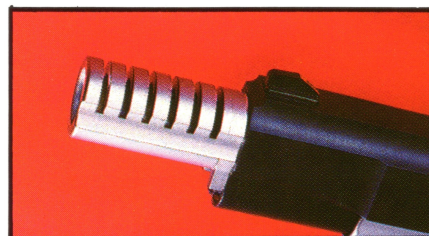

LISTENS BECAUSE, The Grizzly Win Mag is not just another production made auto. It's a precision crafted, smooth operating piece of machinery.

LISTENS BECAUSE, Very close tolerances are maintained from barrel to bushing, bushing to slide, and hand lapped slide to frame. If our tolerances were any tighter, the Grizzly Win Mag would have to be one solid piece of steel.

LISTENS BECAUSE, The Grizzly Win Mag is as accurate as any accurized gun right out of the box.

LISTENS BECAUSE, The Grizzly Win Mag comes in 5.4 and 6.5 inch barrel lengths. It's also available in an 8 and 10 inch slide version.

LISTENS BECAUSE, Three finishes are offered: Satin hard chrome, flat blue, and parkerized. The Grizzly Win Mag is versatile and chambers the 45WM, 45ACP, 357 MAG, 357 / 45 GWM, 10MM. and the 40 S&W.

Grizzly Comp - Reduce muzzle kick with the new Grizzly Comp. This compensator from L.A.R. Mfg. tames the .45 Win Mag to a Panda. It's designed especially for the Grizzly and easily attached and removed Works great on .45 1911 style pistols too!

L.A.R. MANUFACTURING HISTORY

L.A.R. Manufacturing Inc., has enjoyed growth and good stability since its founding in 1968 by the current officers and directors. L.A.R. Manufacturing Inc., is a privately held small business equal opportunity employer devoted to production of mechanical assemblies with an annual gross sales approaching three million dollars.

L.A.R. Manufacturing Inc., is presently under contract to the U.S. Army Armament Command, Rock Island, for production of the M3 Tripod for the M2 Machine Gun; also for production of the M240 Mount for the M240 Machine Gun; for production of the Upper Receiver for the M16 rifle; and for production of the Extension Subassembly, Barrel for the M85 Machine Gun.

L.A.R. Manufacturing Inc's, Quality Control Program meets or exceeds requirements per MIL-Q-9858A. Sampling plans used shall equal or exceed the requirements of the latest Rev. of Mil-Std 105 in effect at the time of the contracts.

It is common practice at L.A.R. Manufacturing Inc., to maintain close precision and quality machined tolerance. These same standards are maintained in the production of the Grizzly Win Mag and the Multi-Caliber Conversion Units. The talents of highly skilled, motivated and dedicated individuals are applied to insure that the end users of these products receive the best in quality and durability.

THE GRIZZLY WIN MAG

"It speaks for itself ..."

"If you've been waiting for an autoloading pistol chambered for a big magnum cartridge that's accurate, reliable, and comfortable to shoot, the odds are you won't be disappointed by the GRIZZLY WIN MAG."

Dick Metcalf
Shooting Times

"If you've any slightest doubts, I was most warmly and favorably impressed by the GRIZZLY and .45 Winchester Magnum. I think they'll both go far."

Dean Grennel
Gun World

"If you plan on hunting somewhere where the autoloader is allowed, I certainly wouldn't be afraid to tackle anything with the GRIZZLY that can be tackled with the vaunted .44 Magnum and I, for one, would prefer it."

Jim Weller
Handgunner

"... the GRIZZLY is one of the most accurate automatic pistols I have ever fired."

J.B. Wood
Guns

"I had to write and tell you how much I like your Mark I. I have been shooting for over 50 years. I have over a dozen handguns I shoot. Then I bought your GRIZZLY. Now when I go out to shoot I grab the GRIZZLY."

Newtown, CT

"I have just purchased a GRIZZLY and I'm very favorably impressed with the workmanship. It's the tightest fit and smoothest working auto that I've fired."

North Dakota

"I have shot every 44 magnum on the market. After all that experience I learned that while I wanted a magnum for bear country, none of the 44's suited me. All in all I find that the GRIZZLY WIN MAG is a total all around gun for fans of the old 1911, A-1."

Henderson, Nevada

"I even had a local police chief come over to the house and drool all over my GRIZZLY. He checked it over and asked me what I thought of it. I told him about my experience with the company and after two days of trying to talk me out of my gun (unsuccessfully) he cancelled his order for a ----- .44 Magnum and gave you guys an order for a GRIZZLY L.A.R."

As we cops on the street say: "What goes around, comes around." Keep up the good work and I'll look forward to doing more business with you in the future."

Suquamish, WA
